Modern

DataOS® Sales Accelerator for Wine and Spirits

Elevate Your Spirits Business

"

VP Marketing, Tequila Brand

Thanks to DataOS, we've gained unprecedented independence in leveraging our data, propelling our business initiatives forward with agility and precision, free from IT constraints."

Elevate Your Spirits Business with Data-Driven Innovation

Introducing the DataOS® Sales Accelerator for Wine and Spirits: a powerful fusion of our Data Products Platform, DataOS®, and a dedicated managed services team, engineered to transform your business operations. We will seamlessly integrate with your current setup, taking full control of your data operations, enabling you to focus solely on achieving remarkable business outcomes.

Transforming Complexity to Clarity

At The Modern Data Company, we recognize the pivotal role of effective data utilization in the vitality of your brand. DataOS® is crafted to demystify the data process, empowering your teams to build and deploy dynamic data products with unparalleled ease. We transform the complexities of data engineering into a streamlined, efficient process, delivering actionable business insights instantly.

Beyond Software – A Partnership in Data Excellence

Our service extends well beyond software solutions. DataOS, in synergy with our managed services, integrates comprehensively into your business operations. We commit to a proactive and thorough approach to your data needs, liberating you to innovate and grow your brand confidently. DataOS Sales Accelerator is your path to a future where data is not just accessible but a central driver of your decision-making, catalyzing the growth and success of your brand.

Driving Results with Actionable Insights

Here are some examples of tangible results for your business:

Drive Hunt & Farm Decisions: Comprehensive depletion and opportunity insights to increase sales efficiency.

Optimized Routing & Visits: Effectively create & manage Route-to-Market assignments.

Drive Top-Line Growth: Power up your search, recommendation, and merchandising engines with DataOS insights.

Sales Amplification: Drive incremental sales by powering your customer segmentation and lead scoring engines.

Secure Data Sharing: Collaborate with external vendors securely. Share data and foster seamless cooperation.

Reusable Data Products: Turn diverse data from sources like Park Street, VIP into ready-to-use data products for any business team.

Lead Generation: Dive into potential markets using Account Demographic Profiling and Category Sales Analysis.
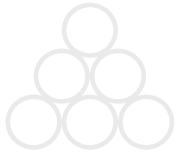

Marketing Precision: Test & optimize all your campaigns and powering Marketing Mix Models with the right data, at the right time, and in the right format.

A Tailored, Scalable Path for Growth

Our approach delivers a direct and adaptable strategy tailored to the unique needs of your brand. At the core of our service, we manage your data operations using DataOS®, setting your business on a definitive path for growth. This approach not only aligns data strategies with your business goals but also offers a scalable platform that grows with you. As your brand expands, you have the flexibility to transition from our managed services to independently handling your data operations, all without the need for additional technology.

Choose our solution for its consistency, flexibility, and unparalleled value. We focus on delivering outcomes that matter, leveraging our cloud-based, reusable solutions to ensure efficiency at every stage of your growth journey. With us, you're not just adopting a data solution; you're embracing a partnership that evolves with your business needs.
